

THE WORLD OVER

URGENT ABOLITION OF SALES TAX

EDMONTON—Abolition of the two per cent sales tax, adoption of an industrial 40-hour week, licensing of coal mines and the launching of a provincial works program to combat unemployment were among the suggestions made by the Alberta government Friday by a delegation from the Alberta Federation of Labor.

The government was urged to construct and renovate buildings and highways to create work for the jobless and permit Alberta to capitalize on its tourist attractions. A housing scheme, in conjunction with the Dominion and the municipalities, also was recommended.

ETHIOPIANS MAY BE EXECUTED

ROME—Italian firing squads are mowing a grim, punitive swath through the ranks of 2,000 Ethiopians rounded up at Addis Ababa after the attempt to assassinate Viceroy Rodolfo Graziani, it was officially announced here on Tuesday night.

From wording of the statement it appeared possible that 1,500 Ethiopians might eventually pay with their lives for the bombing last week that slightly wounded Marshal Graziani and cost Gen. Aurelio Lotta, commander of Italy's East African Air Force, the loss of a leg.

MORATORIUM MAY BE EFFECTIVE

EDMONTON—Debt moratorium in Alberta for 60 days will be proclaimed, according to an announcement made by Premier William Aberhart Tuesday night. The enabling order-in-council has been approved by the government and awaits approval by Chief Justice Hovav as administrator of the province. The order will come into effect on proclamation which will be probably on Wednesday.

The debt holiday was designed to prevent a court judgment outlawing the Reduction and Settlement of Debts Act which Mr. Justice Ewing delivered last Friday. It was designed to prevent wholesale foreclosures and give the provincial government time in which to make a more permanent attack on the debt problem.

COMMUNITY RAZED BY FIRE

JUNEAU, Alaska—Gedak-telven flames consumed nearby Dougan early Tuesday, destroying a small army of fire fighters, and virtually wiped out the town of 300.

Within four hours almost the entire community was in ashes. Douglas and Juneau fire departments, the Coast Guard Cutter Tallahassee and hundreds of citizens fought the fire. The gale carried hot embers three blocks ahead of the main fire, igniting one building after another. The conflagration was checked about noon after fire fighters resorted to dynamite.

Alex Sobylski has had his house moved from the "Island" to a new location at the north end of town.

FUNERAL OF LATE H.N. ELLIOTT LARGELY ATTENDED HERE SUNDAY

Widely-Known Resident Was in His 56th Year

Funeral services for the late H.N. Elliott who died at his home in Carbon on February 17th, were held on Sunday afternoon at 2:30 o'clock from the Carbon United Church, and a large number of friends and acquaintances gathered to pay their last respects to an honored citizen.

Services at the church and at the grave side were conducted by Rev. W. H. McDunnell, and pallbearers were Messrs. L. Poxon, S.P. Torrington, J.A. McKinnon, A. Hay, W. Poxon and L.G. Adkins.

The late Mr. Elliott came to Carbon in 1907 and operated the creamery until 1914, later being appointed to the position of postmaster, which he held until his death. He was in his 56th year and is survived by his wife in Carbon, two brothers, James and Marvin in Ontario, and three sisters, Mrs. Thillie in Ontario and Mrs. Ford and Mrs. Tighe of Vancouver, B.C.

Interment was made in the Carbon cemetery.

Mr. and Mrs. Garnet Tighe and Mr. and Mrs. Harold Tighe of Didsbury were in town on Sunday for the funeral.

LETTERS TO THE EDITOR

Editor, The Carbon Chronicle

Dear Sir—

We feel that a calamity has come to Carbon in the passing of our friend Harry Elliott.

In the spring of 1907 we found a few coves from Aldridge, and found Harry running a fine little creamery in Carbon. He made us feel that Carbon was a friendly place, as well as making our cream look better.

I know I express the sentiments of the country men when I say that we did not know him. In all his dealings he showed much sense and brotherly kindness. He was a courteous gentleman. His was a conservative mind, but he was always tolerant and sympathetic to new ideas.

I always looked forward to a chat with him. He delighted to talk of old times, and his humorous outlook gave us many a good laugh.

We were interested in our young people. He and spoke with pride of the behaviour of the children. Visitors often spoke of our fine Post Office and the country shown them there.

His all join in expressing to Mrs. Elliott our deepest sympathy and assure her that her loss is ours.

Yours respectfully,
L. B. BART

W. H. LEVINS TO OPPOSE J. R. McEWAN IN DIVISION 3

At the nomination for councilors in Division 3 of the Municipal District of Carbon No. 278, held last Saturday, William H. Levins was chosen to oppose John R. McEwan, the retiring councilor, and an election will take place on Saturday, February 27. There will be only one poll, at the Garrett school, and polling hours are from 9:00 o'clock in the morning till 5:00 o'clock in the afternoon.

EWING DECLARES DEBT ACT UNCONSTITUTIONAL

EDMONTON—The Alberta Supreme Court ruled one major act of the Alberta government unconstitutional last Friday and reserved judgment on another.

The Reduction and Settlement of Debts Act, the foundation of the Social Credit government's debt legislation, was declared unconstitutional by Mr. Justice A.F. Ewing.

A few hours later Mr. Justice W. C. Eves reserved judgment on a case which had the effect of testing the legal power of the government to reduce the interest rates on provincial bonds and guaranteed securities.

Meanwhile, it was undecided by the government whether to appeal the Ewing judgment but it was reported that decision would be reached. It also was reported there was a possibility the government eventually would attack the debt problem by means of a moratorium or a reduction in principle or a combination of both.

A session of the Alberta legislature today, providing a means for fast action if the government decides to pass new debt legislation.

LONG YEARS AGO

Feb. 24, 1921

Tom Laing, an old-timer in the Carbon district, has purchased a fruit farm near Kelowna, B.C.

"Tom Carney cannot resist the call of the rough and rich fork, so he has rented Mr. Laing's farm."

Pete Turcotte has accepted a position with the Midland elevator at Carbon.

Messrs. J. A. Gordon, McNaughton, Belling, Beason, Brainerd, and C. Thompson were elected to the Board of Managers of the Presbyterian church at the annual meeting on February 8.

R. SKERRY WINS GRAND CHALLENGE, AND DICK GIMBEL TAKES ONTARIO

Cormack of Acme Wins From Garrett in Blue Ribbon

The annual bonspiel of the Carbon Curling Club was concluded on Thursday, February 18, when the final games of the Consolation event were played.

R. Skerry defeated G. Dishaev in the final of the Grand Challenge, while H. Gimbel defeated J. Greenan in the final of the Ontario Laundry event.

In the Consolation, Cormack of Acme defeated Garrett of Carbon to take the first prize in this event.

The following are the complete results of the games played in the three events:

Grand Challenge Event

Yavis defeated to MacGregor; Skerry won from Woods; Garrett won from McLennan; J.C. Smith won from Gore; Gimbel won from Powers; Flaws won from Gore; C.H. Smith won from Edwards; Dishaev won from Poxon; Skerry won from MacGregor; J.C. Smith won from Garrett; Gimbel won from Flaws; Dishaev won from C.H. Smith; Greenan won from Flaws; Dishaev defeated Edwards; Semi-finals: Greenan defeated Dishaev; Gimbel defeated J.C. Smith. Final: Skerry defeated Dishaev.

Ontario Laundry Event

J.C. Smith won from L. Poxon; J.C. Smith won from Powers; Cormack won from MacGregor; C.H. Smith won from MacLean; Gimbel won from Gore; Greenan won from Yavis; Flaws won from Woods; Dishaev won from Garrett; Edwards won from Skerry; J.C. Smith won from Cormack; Gimbel won from C.H. Smith; Greenan won from Flaws; Dishaev defeated Edwards; Semi-finals: Greenan defeated Dishaev; Gimbel defeated J.C. Smith. Final: Gimbel defeated Greenan.

Blue Ribbon

Gore defeated Woods; Cormack defeated L. Poxon; Cormack defeated Gore; Edwards defeated Powers; Smith defeated Flaws; Garrett defeated MacGregor; Semi-finals: Cormack defeated Edwards; Garrett defeated Smith. Final: Cormack defeated Garrett.

DESIRE PERMANENT MARRIAGE

TOLEDO, Ohio—A few minutes after he had obtained his marriage license, a prospective bridegroom rushed back. "This isn't the kind I want," he expostulated. "I intend to stay married permanently."

Clerks looked puzzled. He pointed to the sentence: "Good for 30 days."

WIZARDRY OF WILD CLOVER

Collecting Nitrogen

How much nitrogen expressed in terms of sulphate of ammonia, do you suppose is contained in the annual growth of wild white clover on one acre? The question was put by Professor Johnstone-Wallace to a visitor and the latter's guess was 400 pounds. That was far short of the mark. 1511 pounds which the professor had obtained by actual weights an analysis of the growth.

Think of it! Over 300 pounds of pure nitrogen per acre! as much as is contained in 1500 pounds of sulphate of ammonia, or 1875 pounds of nitrate of soda. This explains why grasses growing with wild white clover thrive better than when growing alone. The nitrogen is a gift to the grasses and the cost of the wild white clover nothing to collect. All the clover asks for is an adequate supply of phosphate and potash in the fertilizer, and it will produce nitrogen enough and to spare.

Lowering Soil Temperature

Wild white clover forms a close spreading mat which shades the soil from the sun and keeps the soil temperature as much as eight degrees lower than if it is under grass and weeds. This part of the world, where extreme summer heat and drought are fre-

quently experienced, the soil temperature during these periods may reach a point at which growth of herbage practically ceases, so anything so can do to lower the soil temperature of our pasture lands is well worth the effort.

Minerals Needed for Live Stock

Since many nutritional disorders and diseases of farm animals have been traced to lack of adequate mineral in their rations, there has been an increasing demand for mineral supplements. Unfortunately, the demand has led to the attempted exploitation of the farmers by vendors of so-called mineral supplements, many of which are ten times as worthless, and these may be offered at prices far in excess of that at which the farmer could get a ton of well-balanced proper composition.

Worthless Supplements

Recently two striking instances of fraudulent practice were brought to the attention of government inspectors. One material consisted almost entirely of ground limestone, the other of common salt, yet both were being sold at fantastic prices. The power of suggestion a man may be induced to believe in and feed the powder that it is under some enormous drug, but one can't make a suggestion of that kind to a cow.

HOCKEY FINALS IN CALGARY

The Allan Cup hockey final will be played in Calgary starting April 6, Dr. W.G. Hardy, vice-president of the Canadian Amateur Hockey Association announced on Monday.

Western final games will be played in Calgary March 25, 27 and 29. The all-Canada final series will be played April 6, 8, 10, 12 and 14 in a three-out-of-five series.

It will mark the first time the Allan Cup final has been played in this part of the west.

ANNUAL MEETING OF MUNICIPAL DISTRICT OF CARBON IS HELD

Opposes Plan to Bring in 250,000 New Settlers From Gt. Britain

The annual general meeting of the ratemakers of the Municipal District of Carbon was held in the Farmers' Exchange hall, Carbon, on Saturday, February 20th, and a good turnout of interested tax payers was present. The financial statement for the year 1936 was reviewed and discussed and it was shown that the Carbon Municipality was in excellent shape.

A motion by J.R. McKibbin and J. A. Kibben, seconded by the effect that in view of the fact that the C.P.R. president and others propose an immigration scheme to bring in 250,000 new settlers from Great Britain in the next five years, that the meeting be opposed to such a scheme and that protest be in to Premier Wm. Aberhart, and E.P. Foster, M.L.A.

A brief on behalf of the farmers in the southern part of Alberta was presented to the ratemakers for approval. This brief in short is that: "Western Canada's wheat marketing problem must be adequately met by the establishment of a wheat board, completely controlling all the wheat marketed by growers."

The ratemakers of Carbon municipality were unanimously in favour of having this brief submitted to the Turgeon Grain Commission, which is to sit in Calgary sometime in March.

Nominations Received

Following the meeting the R-turning Officer received nominations as outlined below:

For member on the Drummehly Municipal Hospital Board, Geo. H. Webster, who has declared election by acclamation.

For councillor in Division 2, J.J. Oshlauer, who was also declared elected by acclamation.

For councillor in Division 3, J. R. McEwan and W.H. Levins. An election is to be held in this division.

Playing ten minutes of overtime in Calgary on Tuesday night, the Drummerhly Miners sprung a surprise, as they defeated the Calgary Rangers to qualify them to play in the finals for the Senior Alberta championship.

THE WORLD OF WHEAT

H.G.L. Strange

An international economic battle for wheat markets will some day—perhaps soon—take place.

The contestants will undoubtedly be Canada, the Argentine, Russia, the Danubian countries and Australia.

Which exporting country will be able to increase its wheat acreage? Which will be forced to decrease acreage?

And which will be able to hold the acreage they have now?

The country that can produce the highest quality at the lowest cost will win; others will lose.

The harsh truth is that it is much more necessary for Canada to keep

C.G.I.T. SPONSORS FINE AMATEUR PROGRAM IN HALL TUESDAY NIGHT

Prices Awarded to Miss Ellen Trumbull and Miss Peggy Standfield

The amateur contest sponsored by the C.G.I.T. and held in the Farmers' Exchange hall on Tuesday night, was very well attended and an entertaining program was submitted.

After the program the audience was asked to judge who presented the best numbers and the decision was as follows: For the adults, Miss Ellen Trumbull, with Mr. Newell as runner-up. For the children, Miss Peggy Standfield was declared the best, with little Loretta Talbot as runner-up.

The following is the program as presented, with Mrs. McKibbin, Miss MacGregor and Mrs. C.H. Smith as pianists.

Charlie Smith took the part of Major Bowes.

Song, Kathleen Reid; Song, Francis Poxon, Bill and Gladys, and Peggy Greenan; Musical number, Gordon Ward and Ed Pierson; Song and dance, Marilyn Hay; Song, Mac Breker; Tap dance, Ellen Trumbull and Charles Reid; Song, Marie Reid; Song, Hill Billies; Volodting tune, Loretta Talbot; Song, Donald Gordon; Solo, Mr. Freeman; Duet, Dick sisters; Kazoo number, Dale Poxon; Skit, Les Trempanier and Grace Cameron; Solo, Mr. Norman Reid; Song, Howie Williams; Whistling Rufus, Vera Oshlauer; Ladies quartette, Mrs. Evans, Mrs. C.H. Smith, Mrs. Greenman and Miss H. Bell; Comic song, Peggy Standfield; Song, Marion Torrence; Community singing led by Len Poxon; Highland Flang, Betty Willson and Mabel Nash; Song with guitar accompaniment, by Miss Sailer and Master Sailer; Solo, Mrs. Greenman; Solo, Irene Grenier; Song with guitar accompaniment, G. Hovenger; Tap dance, Jolayne Milligan and Margaret MacGregor; Song, Lily Dixon.

Following the balloting for the best performers a short play was produced.

For any of the other countries The Argentine has corn, flaxseed, and cattle as substitutes. Australia has mutton and wool. The Danubian countries have pork, and tobacco.

As Russia has a large population needing more foodstuffs, Canada alone has no substitutable product for export which she can grow on any substantial part of her twenty four million acres now in wheat.

For heavy general rains benefit Indian wheat and linseed. On passage wheat stocks increase—Officially decided not to raise guaranteed price of wheat in France—Four out of five production in Argentina increasing—Irish Free State increases home-grown wheat required in milling.

Following factors have tended to raise price:

German food scarcity becomes more evident as purchases made of Czechoslovakian, Indian and Australian wheat, also Argentine wheat and corn.

Further large quantities of wheat probably needed—Further dust storms with little precipitation in U.S. south—West coast Mexican vegetables damaged by frost.

Following factors have tended to lower price:

Heavy general rains benefit Indian wheat and linseed. On passage wheat stocks increase—Officially decided not to raise guaranteed price of wheat in France—Four out of five production in Argentina increasing—Irish Free State increases home-grown wheat required in milling.

Shoppe, Calgary, was a Carbon visi-
ton on Tuesday.

TWO-WAY ROADS MUCH SAFER

In the interests of safety, the two-
way or dual pavements have been
demonstrated as an important factor
in reducing the number of accidents
according to officials of the Alberta
Motor Association.A survey conducted in the cen-
tre showed that motor collisions such as
head-on crashes form a large percent-
age of car accidents. On the highways
of Ontario, this type of accident ac-
counted for one-half the collisions in
1935.To remedy the situation, it is con-
tended that dual pavements, each of
full width, should be provided, then
to be separated by a boulevard strip.
Then the danger of head-on collisions
would be largely eliminated.The Office of the A.M.A. point out
that this is something which road con-
struction officials in Alberta should
give attention to, particularly in view
of the growing tourist business ex-
pected here.It is suggested that road build-
ers should look to the future by securing
additional right-of-way for highways
so that when traffic congestion be-
comes so bad that the two-way high-
ways and the boulevards are necessary,
there will be no obstacle in the way of
carrying out such improvements. A
long term option might be taken on
such adjacent lands by government
and municipal authorities, instead of
proceeding to the necessity of expro-
priating the area required."That chicken we had at dinner was
an incubator chicken."
"How do you know that?"
"Any chicken that had a mother
couldn't be that tough.""Somebody
to see you!"IF EVERYBODY with something to interest you
should come and ring your bell, what a nuisance
it would be. Think of the swarming, jostling crowd,
the stamping of feet on your porch and carpet!Every week we know of many callers who come
to see you. They never jangle the bell—they don't
take up your whole day trying to get your attention.
Instead, they do it in a way that is most considerate
of your privacy and your convenience. Their adver-
tise in your newspaper!In this way you have only to listen to those you
know at a glance have something that interests you.
They make it short, too, so you can gather quickly
just what you want to know. You can receive and
hear them all without noise or confusion in a very
few minutes.In fairness to yourself look over all the adver-
tisements. The smallest and the largest—you never
can be sure which one will tell something you really
want to know.
